

PROPOSED PARAMETERS AND SCOPE OF INVESTIGATION REGARDING COUNTY ROAD SAFETY

Prepared by Susie Pu and Michael Williams for consideration at the December 10, 2020 COGC meeting
(Revisions Proposed by Evan Dust & Paula Heiskell for consideration at the July 14, 2022 COGC meeting)

For Reconsideration at December 8, 2022 COGC Meeting (revised termination date)

Overall:

- Is the County using Best Practices in prioritizing its assessment of road safety maintenance and design on County roads?
- Is the County maximizing its cooperation with the state Department of Transportation, and with the Federal Highway Administration Local and Rural Road Safety Program on road safety maintenance and design?
- Is there adequate signage in areas where there are known dangers that may not be obvious to drivers?
- Are there any serious road safety problems that are not being adequately addressed in Maui County?

The goals of this inquiry:

- To review how the County monitors and evaluates road safety issues.
- To review how the County interacts with state and federal governments on road safety issues.
- To report to the Mayor and Council on the process used by the County staff to identify and recommend prioritized safety improvement projects, with specific locations identified if best practices would determine a higher priority for a project addressing those specific locations.

Timeline:

- Complete draft report to COGC by February 2022 meeting
- Complete final report by COGC for March 2023 meeting
